

YOUR CONTACTS AT KREUTZPOINTNER ENERGY

Fritz Kreuzpointner
Managing director

Ludwig Blenninger
Technical manager
Tel.: +49 8722 967507-11
Mobile: +49 152 22551260
E-mail: l.blenninger@kreuzpointner.de

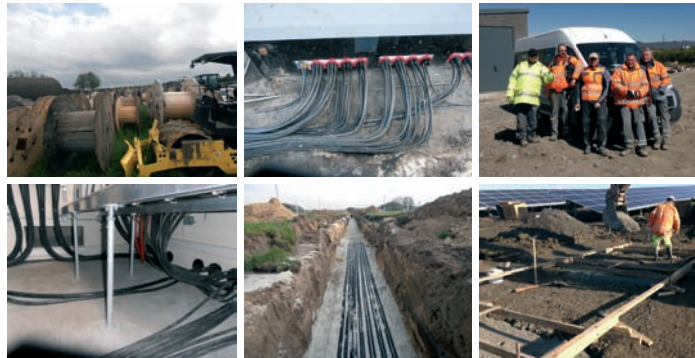

Thorsten Scheck
Operational management
Tel.: +49 8722 967507-12
Mobile: +49 152 22551387
E-mail: t.scheck@kreuzpointner.de

Willi Gross
Sales management
Tel.: +49 8722 967507-14
Mobile: +49 152 22551107
E-mail: w.gross@kreuzpointner.de

Veronika Blenninger
Administration
Tel.: +49 8722 967507-20
Mobile: +49 152 22551112
E-mail: v.blenninger@kreuzpointner.de

OUR REFERENCE PROJECTS

As at mid-2015, KREUTZPOINTNER ENERGY had already installed approximately 220 MWp of output, including roof systems and car-port solutions.

Locations and system output

> Gardelegen	3.9 MWp
> Meißen	7.7 MWp
> Beuna	3.9 + 4.2 MWp
> Neunhagen	4.1 MWp
> Gerstungen	3.9 + 4.4 MWp
> Ahlhorn	18.0 + 33.0 MWp
> Tietelsen	4.4 MWp
> Bristol	11.9 MWp
> Cardiff	11.6 MWp

OUR SERVICES AT A GLANCE

PLANNING AND PROJECT MANAGEMENT

Large-scale photovoltaic plants and solar parks

- > 30 KW roof systems to 50 MW solar parks
- > Commercial building units
- > Municipal facilities

SERVICE

Turnkey construction of roof systems, carport solutions and solar parks

- > Consulting
- > Planning
- > Sales
- > Earthworks
- > Frame assembly
- > Module assembly
- > Module assembly
- > AC cabling
- > DC connection
- > Commissioning
- > Documentation

Medium-voltage link

- > Assembly and connection of transformer stations and medium-voltage switchgear

Servicing and maintenance

- > Maintenance contracts for existing photovoltaic plants, carports and solar parks
- > Characteristic curve measurement, thermal imaging, output measurement on individual modules and strings

LED TECHNOLOGY

Lighting systems

- > Consulting
- > Planning
- > Sales
 - Street and tunnel lighting
 - Pathway and area lighting
 - Railway, motorway and airport lighting
 - Sports facility and property lighting
 - Industrial lighting

ELECTRICAL INSTALLATION

Installation work

- > Cable duct installation and expansion of cable routes
- > Overground and underground cable pulling with earthworks
- > Dismantling of industrial plants

51 MWp solar park in Ahlhorn, Lower Saxony

Solar and special projects

KREUTZPOINTNER ENERGY GMBH

The worldwide energy transition is far from complete. Projects in which deadlines are critical due to rapid changes in general conditions are a major challenge when it comes to large-scale plants in the field of regenerative energies.

KREUTZPOINTNER ENERGY, an Elektro Kreuzpointner Group company founded in 2015, responds to this demand with a highly flexible and constantly mobile team that can be deployed throughout Europe and around the world.

Our experienced team ensures the highest levels of professionalism and quality in execution, equipped with appropriate machinery. This allows us to offer all services relating to the planning, construction and installation of large-scale electrotechnical photovoltaic plants in open spaces or on roofs.

KREUTZPOINTNER ENERGY – a "rapid response team" whose range of services also includes short-term special projects, for example in the form of the renovation of lighting systems in large industrial buildings or the dismantling of electrotechnical industrial plants.
